EDUCATION

➤ BTech in Information Technology

2020-2024

JIS college of Engineering, Kalyani
8.78 CGPA

➤ WBCHSE – 12th

Kashiram Das Institution, Katwa
73.4 percent

SKILLS

➤ Programming Language

C/C++, Java, JavaScript, SQL, HTML, CSS

➤ Subject

Object Oriented Programming (OOPs), Data Structure and Algorithm, Operating System, DBMS & MYSQL database, Computer Networking

➤ Library and Framework

Tailwind CSS, react js., Node js , Express js, MongoDB

➤ Tools & Technologies

Linux, JDBC, git & github

PROJECTS

➤ Phytapixel:

- It is a machine learning based project which predict whether a plant is suffering from any disease. Used CNN for image classification.
- Created a frontend using react to interact with the model hosted on google cloud using Fast API.

➤ Encipher :

 [Patentlink](#)

- We have used Symmetric key algorithm for the encryption process.
- It takes input from user and converts into encrypted message. Further, it decrypts the data and shows the original message.

➤ AmourVerse-A social connecting platform:

- A dating platform that connects users, featuring real-time messaging and secure authentication. Built scalable RESTful APIs using Node.js, Express, and MongoDB.
- Designed an engaging React-based frontend, integrated dynamic feeds with pagination, and optimized backend performance for seamless user experiences.

Internship and training

➤ Persistent System

Intern

May 2023-August 2023

- Completed training modules on Core Java, J2EE (Servlet & JSP), JDBC and SQL.
- Gained hands-on experience with MySQL databases, performing complex queries and database management.
- Worked on coding exercises and project assignments to strengthen Java programming skills.
- Enhanced knowledge of computer networking and Linux operating systems through practical exercises and troubleshooting tasks.

➤ Simplbyte

Web development Intern

March 2023-April 2023

- Developed web pages using HTML, CSS, and JavaScript, React js. ensuring responsive and user-friendly designs.
- Participated in team meetings and contributed ideas for improving web development processes.

➤ MTA Learning Private Ltd.

Trainee

February 2023-March 2023

- Completed comprehensive training in web development, focusing on front-end technologies.
- Built multiple projects to apply HTML, CSS, and JavaScript skills in real-world scenarios.
- Learned best practices for code organization, version control, and collaborative development.
- Received feedback and guidance from mentors to enhance coding techniques and problem-solving abilities.

Certification

- The SQL by [University of Colorado Boulder](#)
- The Complete 2023 Web Developer Bootcamp by Dr. Angela Yu.
- CISCO networking essential.
- AWS academy cloud architecting.
